## Overview

India has an ancient culture and an enormous body of literature that goes back 3000 years. Today India is the world's tenth largest economy and an emerging information technology superpower. Six major religions are practiced in India and there are fifteen official languages. India is a patchwork of ethnicities. It is the second most populous country in the world and the largest democracy. India provides an excellent case study for all the global issues that confront the world today. Both traditional and contemporary aspects are covered.

## Plan of Study

Completion of a minimum of (15) fifteen credits at the 2000-level or above is required, including at least 3 courses from Group A. Any remaining credits can be completed in Group B courses, INDS courses, or any independent study that focuses on India (approved by coordinator of India Studies).

The India Studies minor requires one of the following:

1. The completion of INDS 4296 Thesis (or)
2. The completion of any thesis focusing on India and approved by the Coordinator of India Studies (or)
3. Participation in an approved, credit-bearing Study Abroad program in India (or)
4. An approved independent study which is completed in India

Also recommended are appropriate 1000-level and above courses that provide an introduction to the advanced courses, such as PHIL 1106. Students are strongly encouraged (although not required) to take an Indian language course in the Critical Languages program.

NOTE: Completion of a minor requires that a student earn a C (2.0) or better in each of the required courses for that minor. A maximum of 3 credits towards the minor may be transfer credits of courses equivalent to University of Connecticut courses. Substitutions are not possible for required courses in a minor.
